## WHY ELEAP & AZIMIO?

"The eLeaP system is very user-friendly, and it significantly improved our current training process. The thing that was most impressive to me was the customer service.

It's very rare that a CEO would take the time to sit with a client and help them with their every need. Don Weobong was instrumental during the implementation of eLeaP for our company. He was very quick to answer any questions we had and helped us with any issues we ran into during implementation. I would recommend eLeaP to any company that is looking to move to a web-based training system."

Nate Barin
